## An Important Quartus Workshop to help you

### LIVE YOUR DREAM

To *live* is to *be--which* means to thrive, flourish. *Dream* comes from Old English meaning *joy, jubilation*. To live your dream is to be joyfully fulfilled in the desires of your heart.

What are your deepest hopes, wishes and *dreams!* When you can truly answer that question, fulfillment becomes a reality.

Step 1 in this intensive is to understand the secret of life to move beyond the physical aspects into the creative energy of the Natural Order Process. Everything that you could possibly *dream* of having, doing, being already exists in Divine Consciousness, ready to be expressed in the phenomenal world.

Step 2 is to recognize that an unfulfilled life is a false perception, thus shattering the illusion to reveal reality.

Step 3 is to let the good that already is become a visible experience, but if you are focusing primarily on improving your physical world by changing the material aspects, you may surely experience delays. The secret of life is spiritual consciousness, and as you move upward into the higher frequencies you will tap into your Divine Plan, see why you are living in this world at this time, and recognize your original creative intentions. From here you will see abundance as non-physical substance, the body as radiant light, success as a soul mission, and relationships in harmony.

The facilitating team of John Price, Jan Mahannah and Coe Savage have been working with the lines of force for a greater understanding of the Divine Plan and the long forgotten creative intentions etched deeply in the heart. This workshop will indeed be a life-changing experience.

**The workshop will begin on Thursday evening, May 30th at 7:30 pm and will conclude at noon on Sunday, June 2nd. Please use the form on the reverse side to enroll.
